

MARITIM
Airport Hotel Hannover

With *safety* to a successful event

Hygiene and safety measures

The Maritim hygiene and safety standards meet the highest requirements for your carefree stay.

These include:

- Hygiene measures officially tested by the German health authorities
- Daily disinfection of all guest areas
- Regular hygiene training for employees
- Flexible booking conditions
- Sophisticated event formats (indoor/outdoor, on-site/hybrid/digital)

What else we do for safety in our hotels, can be found on our webpage: www.maritim.com/en/covid-19

Ventilation and air purification measures

For the safe staging of events in enclosed spaces, permanent ventilation is essential to prevent infections through aerosol transmission. Optimum protection is provided by mechanical ventilation that complies with the technical specifications. Such ventilation systems are used at Maritim Hotels. They continuously remove the existing room air and bring in outside air that has been purified by filters. This ensures excellent air purification efficiency, allowing the room to be used all year round without any restrictions on comfort.

Details of the

Maritim Airport Hotel Hannover:

Are the rooms equipped with air conditioning systems?

Yes

Where are the inlet and outlet openings?

Air is supplied and extracted via the ceiling, i.e. from above.

Which filters are used?

Coarse filter ISO ePM10 70 %, fine filter ISO ePM2.5 65 %

What is the air exchange per room?

- Public areas n.a.*
- Halls 8 x per hour
- Salons 11 x per hour
- Restaurants 6 x per hour

What is the percentage of fresh air?

100 %

Is it possible to open the windows?

Yes, in all event rooms with daylight.

What else we do for your successful event in our hotel, you can find out on our webpage: www.maritim.com/en/meetings-celebrations

*Due to the large room volume, the air exchange rate is hardly relevant (air conditioning systems with 11,000 m³/h available).
